PZM-T75	1000	34	50-750

DATA SHEET - LIFTING CLAMP FOR PREFABRICATED ELEMENTS

Handling equipment

Lifting clamp for prefabricated elements

Telescopic handling clamp

The PZM-T clamp is a versatile tool designed with a wide adjustable opening range, ideal for gripping steps, curbs, beams, and similar concrete elements.

These models feature a fully automatic mechanism for quick 'grabbing' and 'release' of loads. The transport handle adds convenience, allowing easy adaptation to the available workspace. The rubber jaws are interchangeable, ensuring flexibility in applications. With these features, the PZM-T clamp proves to be an efficient and reliable tool on-site, capable of meeting various lifting needs.

All our clamps are manufactured and tested according to standards UNI EN 13155, UNI EN ISO 12100, UNI EN 13854, ISO 8686 and UNI EN 10204, and are issued with the corresponding label, conformity certificate, and user and maintenance manual.

All our products are covered by a one-year warranty (European Directive).
