DATA SHEET - CONICAL CONCRETE BUCKET WITH BOTTOM-SIDE DISCHARGE AND GEARED OPENING

Concrete buckets

Conical concrete bucket with bottom-side discharge and geared opening

Concrete bucket with side discharge and wheel opening

We present the BF-V model, a side discharge concrete bucket for cranes, a versatile option designed to meet the specific needs of your construction projects. Equipped with a side discharge and manual double-wheel opening, the BF-V model ensures precise control of the concrete pour thanks to its guillotine closure. You can request the BF-V model with a base equipped for lifting with a forklift or telehandler, model BF-VST, or request the application of a rubber hose, model BF-VT. Available in various sizes and capacities, as indicated in the table below, the BF-V model can be customized to meet the specific needs of your project. All our buckets are built and tested according to the rigorous standards of UNI EN ISO 12100, UNI EN 13854, ISO 8686, UNI EN 10027, and UNI EN 10204, ensuring the highest quality and safety. Each product is accompanied by a metal ID plate, certificate of conformity, and user and maintenance manual. Our commitment to quality is also reflected in the one-year warranty coverage, in compliance with the European Directive.
